

# Improvised Shows

Improvised creative fire dancing can make much more sense for some kinds of event than a set show.

For example as an entrance or opening animation for – let's say – a reception, as an entertaining interlude happening several times during the course of an event, for limited or challenging spaces.

You choose duration, fire tools, fire effects, and music – we entertain your audience with fascinating playing with flames and fiery dancing! Optional as solo or duo show or in a group of up to 10 fire dancers.
